EVS Metal Purchases Amada EM 3612 ZRT Turret Punch Press

Riverdale, NJ – March 13, 2015 -- EVS Metal, Inc., a leading supplier of custom fabricated sheet metal, integration, machined parts and engineering services, is proud to announce its recent purchase of the Amada EM ZRT 3612 Turret Punch Press, a revolutionary automated solution to metal fabrication. The turret punch press will allow EVS to produce more with less setup costs, in smaller lot sizes, to better accommodate client requests at a competitive rate. EVS also purchased full automated material load/unload with the Turret, which will offer lights out automation as well.

The Amada EM ZRT Turret Punch Press features automatic tool loading, which means that more can be done around the clock without a heavy reliance on direct labor. It also allows for a shorter lead-in time to meet customer requirements. Its dual servo drive significantly cuts any maintenance and energy costs. All of these cost-saving benefits will allow EVS to offer superior products and services without sacrificing on affordability.

“The decision to bring the Amada ZRT to our facility is completely driven by our missions to provide value to our clients. The Amada ZRT will enable EVS to do more with less, and we are really excited to get it up and running” – Joe Amico (VP)

In addition to automatic tool loading, the Amada ZRT Turret Punch Press has four tapping stations, which automatically detect broken taps and replace them. It also features a large brush table and die-lift station that negates the risk of scratching during the processing stage. In total, the Amada ZRT Turret Punch Press can store 300 tools to support a wide variety of customer orders.

EVS Metal is proud to welcome the Amada ZRT Turret Punch Press to its metal fabrication facility as it continues to produce parts that meet customers' custom metal fabrication requirements. This new addition will advance EVS's commitment to provide the best products and services in the industry.

About EVS Metal

EVS Metal provides prototyping, production and engineering services to companies throughout the United States. Products and services include chassis, enclosure, and complex large and small weldment production, as well as the fabrication of highly cosmetic finished parts, including mirrored finish stainless. EVS also offers integration services, various stocking programs and design engineering support. EVS Metal is a privately held corporation, headquartered with a manufacturing facility in Riverdale, New Jersey and additional facilities in Pflugerville, TX, Keene, NH and East Stroudsburg, PA. EVS Metal recognized for its world class manufacturing processes has enjoyed tremendous growth, fueled by a commitment to service, quality and solutions to the customer's supply chain fabrication needs.
